OVERVIEW

Himalayan Builders & Engineers Pvt. Ltd. is a global design-build contracting company based in Nepal, that has grown to include a highly specialized team of architects, engineers, and designers working out of 4 offices nationally and internationally. Fondly known as HBE, our company has a wide array of project categories we have worked in.

Established in 1992, our heritage has been forged by decades of service to the construction industry and is a testament to the company's commitment, expertise, and integrity in all that we do.

We are an 'A' class construction company, with objectives to carry out specialized contracting and engineering projects. Projects undertaken by us include commercial and residential high-rises, design-build contracts, EPC contracts, operations and maintenance, refurbishments and expert renovations with retrofitting, alterations, and new builds. Our construction management approach focuses on vigorously controlling project time, cost, quality, and scope throughout a project's lifecycle.

PRESIDENT'S STATEMENT

“ My little experience of 3 decades has taught me that honesty , transparency, and promptness in one's thoughts and actions brings not only the guarantee of success, but also a priceless repute.

With open-mindedness and an appetite for risk, I, along with my companies, have ensured the only our name is enough to bring a sense of relief to our stakeholders. By bringing many firsts to Nepal, we have continued to do so in our field of work. Being one of the pioneers in design-build and EPC contracts, we have made our way to specialized national and international markets, embraced by a glorious clientele.

We put the society and common good before anything we do. We forever remain indebted to our roots for teaching us humility, and our profession to allow us to turn dreams into reality.

Forwards and onwards, together.

- J. D. Khanal, President

MISSION

To achieve the status of a “people first” group with a strong sense of responsibility, continually striving to develop the industry and setting new benchmarks for all stakeholders.

VISION

To collaboratively strive towards becoming a people-centric yet process-driven group where new levels of professionalism and workmanship drive the organization’s mission towards providing construction solutions that support communities and uplift the nation.

APPROACH

Sustainability is at the heart of everything we do. We audit all projects against global standards, while developing bespoke strategies that drive our societal agenda. To build sustainably requires us to design holistically, and our unique integrated design approach enables us to develop innovative strategies that have a firm focus on the future of the environment, society, and the nation.

From within the practice, proficient architects and engineers, together with other specialist design teams, work alongside to develop **best-in-class** design and construction solutions. Every project incorporates comprehensive and professional standards of construction, leading to a solution that is tailor-made for the user.

Value for money and appropriate people-centric values applied to the construction phases make our approach relevant in today's world where the right mix of empathy and professionalism are amiss.

FOOTPRINT

NATIONAL PORTFOLIO

HIMALAYAN BUILDERS & ENGINEERS PVT. LTD.

A design-build, EPC, turnkey, A-Class civil engineering, and general contracting company based in Kathmandu, Nepal.

JK ASSOCIATES

An architecture and design firm that has an extended service portfolio of surveying, PMC, consultancy, based in Kathmandu, Nepal.

HIMALAYAN MEP DESIGN & SERVICES CO.

A firm established to undertake mechanical, electrical, and plumbing work including designing and execution of said work, based in Kathmandu, Nepal.

HIMALAYAN INTL. ENG. & CONSTRUCTION CO.

A specialized construction company established to work in the fields of green buildings, treatment plants, sustainable construction, based in Kathmandu, Nepal.

HIMALAYAN INTERCONT. MULTIPURPOSE

A firm with a valid trading license, a wide range of authorized distributorships of international brands, authorized trading partners, based in Kathmandu, Nepal.

PROJECT GALLERY

HOTEL LHASA (DUSIT PRINCESS)

A boutique hotel of 13 floors with double basement, boasting a total of 110K sq. ft. of built-up area. The property is located in Lazimpat, one of the poshest locations in Kathmandu.

Employed under Hotel Lhasa International group, this is one of the largest hotels built in an area which had a very narrow location access with high rise buildings surrounding the property.

SOALTEE SIBKRIM HOTEL

Soaltee Sibkrim Hotels and Resorts Pvt. Ltd. had commissioned us to carry out the construction work of Soaltee Sibkrim Hotel in Nepalgunj with built-up area of 117K sq. ft. in 2015.

This is the only LEED (Leadership in Energy and Environmental Design, is the most widely used green building rating system in the world) certified hotel in Nepalgunj, Nepal, and its one of the most significant projects in mid-west Nepal.

KATHMANDU WORLD SCHOOL

The construction project of Kathmandu World School building was completed with a built-up area of 131K sq. ft. in 2019. The orientation of the building is designed in such a way that maximum sunlight can be utilized and is built on a hillock, utilizing the terrain of the landscape. This is one of the largest schools in Nepal with facilities for boarding and day boarding students from across Nepal.

NCELL AXIATA LIMITED

The headquarter of the telecommunications giant Ncell Pvt. Ltd. (owned by Axiata, Malaysia) located at Lainchaur, Kathmandu. The project comprises of all interior fit out work, awarded to us as a design-build project with total area of 55K sq.ft.

RECONSTRUCTION OF PAROPAKAR MATERNITY AND WOMEN'S HOSPITAL & NAMS BIR HOSPITAL

Following the earthquake of 2015, this project was completed, as a single package, under the employ of Hazama Ando Corporation from Japan.

These hospitals had a long standing history and now have been in full operation since their completion by us in 2019.

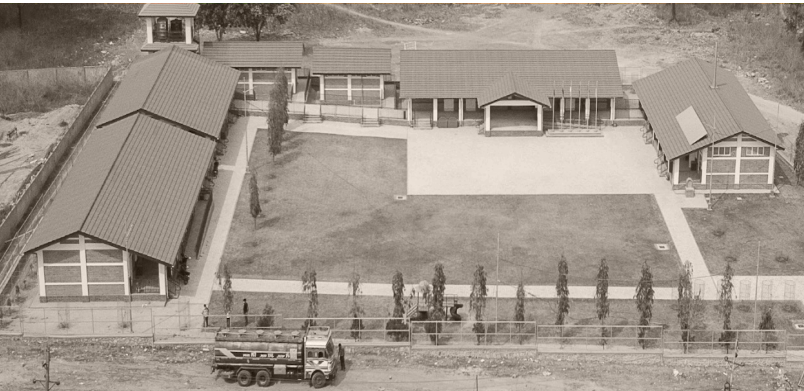

ULLENS SCHOOL

This design-build project of Ullens School building at Khumaltar, Kathmandu has concrete shear wall structures with raft foundation. The total built-up area is approximately 41K sq. ft., with a basement and 5 stories.

LINCOLN SCHOOL

Lincoln School building construction project at Rabi Bhawan, Kathmandu. The construction is with reinforced concrete structure with combined isolated foundation. The total built up area is around 46K sq. ft.

6 SCHOOLS, 2 HEALTH POSTS USAID RECONSTRUCTION

Awarded under a single contract, this project features a direct order to HBE for the reconstruction of 6 schools and 2 health posts in one of the most remote areas of Nepal: Makwanpur. One of the largest single contract projects done by HBE.

BIRENDRA PEACE OPERATIONS TRAINING CENTER

This design-build project under direct employ of the US Government was funded by the US Government and transferred to the Nepalese Army. This training center also has a level 1 medical facility, and is located in Panchkhal, Nepal.

ISHAN CHILDREN & WOMEN'S HOSPITAL

This project was under a full package of civil and finishing in Kathmandu, under a private promoter. This is a specialty hospital constructed especially for children and women, prioritizing spacious rooms, natural light, and airy corridors to comfort the patients.

TATA SIPRADI SHOWROOM/ OFFICE BUILDING

This showroom and office building of Tata Sipradi is located in Kathmandu, Nepal. The building is an authorized office and showroom of Tata Motors and Sipradi Trading. The unique outlook serves an aesthetic as well as practical purposes.

US EMBASSY WAREHOUSE

This project was carried out as a design/build project in Kathmandu, under OBO, Washington D.C. The warehouse was constructed with reinforced concrete footing along with reinforced concrete shear wall as per seismic requirements and consisted of a two-story building covered with a metal sheet roof on metal truss.

PSU US EMBASSY

This project consisted of construction of a new anti-ram RCC perimeter wall at the Chancery building at Kathmandu, with a picket fence on top, and upgrade of the existing perimeter wall with both picket fence and razor wire on top of the wall. The project also included the construction of a new CAC, sally port, service building, 4 sliding gates and 2 gatehouses.

USEF BUILDING

This project includes construction of an RCC framed structure two-story office building for the United States Information Center located at Kathmandu, Nepal. This project is also inclusive of remodeling of the existing building inside the compound.

EGRESS TOWER, US EMBASSY, THAILAND

This construction project consisted of fourteen stories of concrete structured emergency egress stair tower construction attached to the existing Ruamrudee Mansion Building. It also included the construction of metal decks on each floor of the existing building.

PSU UPGRADE, US CONSULATE, JAPAN

This design-build project undertaken by us as primary contractors for the Overseas Building Operations (OBO), USA is located at the American Consulate General, Naha, Japan was for the perimeter security upgrade.

PROPOSITION

With a growing need for sustainability and professional holism, our approach remains the same at the core, but ensures there is flexibility to catch up with global trends. **Himalayan Group** and all its companies focus on scaling up, diversifying, and raising the industry standards of the construction industry of Nepal, South-Asia, and ultimately the world.

With an impeccable record for safety and ethical practices, HBE has stood the test of time to not succumb to any such actions that would dent the reputation that sets us apart instantly. While the only way to build ourselves has been to build the community, we have made sure our ability to put “human” efforts always reflects in our approach.

We wish to move towards a larger canvas to paint our success with collaborative efforts and do not wish to tarnish the very foundation our success: reputation. Accommodating new construction trends and practices, advocating sustainability and green building, bringing efficiency and value for money, and delivering before time and beyond expectations, developing people and the community: Himalayan Builders under Himalayan Group has its motives clear and in action.
